

(actual exam font pages may differ slightly, but should be vaguely similar to these)

UNIVERSITY OF BRISTOL

Computational Neuroscience SEMT30003/4 Exam

FACULTY OF ENGINEERING

SEMT30003

Computational Neuroscience

TIME ALLOWED:

1 hour

This paper contains two parts:

[A] 18 fact-based content questions, 20 marks total. The first 17 short questions are each worth 1 mark. The final question (18) is worth 3 marks.

Please attempt all of them.

[B] Attempt 2 out of 3 in-depth questions, 15 marks each (30 marks).

If all 3 questions are attempted, only the best 2 will count toward the overall mark.

The maximum for this paper is 50 MARKS.

Word counts are hints to help you avoid spending more time than needed. You may exceed the advised word count if you wish. You may also use diagrams, illustrations, figures and mathematics as appropriate.

Other Instructions:

Calculators must have the Faculty of Engineering Seal of Approval.

TURN OVER ONLY WHEN TOLD TO START WRITING
